

# Chemical Consultants INCORPORATED

## SUPRA-C

## Emulsion Remover

### GENERAL DESCRIPTION

SUPRA-C is designed for removal of all photo polymer, diazo, and capillary film emulsions. SUPRA-C will immediately liquify and break down the emulsion. Dramatically increase the speed of the reclaim procedure.

### ADVANTAGES

- Easy to use
- Immediately breaks down emulsion
- Low Odor
- Safe on all types of mesh
- Non-Hazardous
- Biodegradable / Drain Safe
- Concentrated

#### Quick Tip:

Use an emulsion remover that has plenty strength to break down the emulsion.

Emulsions, that are not properly broken down, will leave excessive residue on the mesh.

### Application

SUPRA-C can be used in concentrated form, or it can be diluted up to 1 to 5 parts of water. SUPRA-C can be applied by a sponge, pad, spray bottle, or pneumatic pump systems.

**Step 1.** After removal of ink, block-out, and tape, apply SUPRA-C to a wet screen(both sides).

**Step 2.** Scrub screen with non-abrasive pad or brush.

**Step 3.** High pressure rinse - starting at bottom.

### Packaging

1 gallon

4 x 1 gallon

5 gallon pail

30 gallon drum

55 gallon drum
