**T-6**

**Textile & Graphic Recirculating Screen Wash**

## GENERAL DESCRIPTION

T-6 is a water soluble ink degradant. It is highly effective on plastisol, multi-purpose (solvent based), poster, UV, and vinyl inks. T-6 will protect the fabric from deep stains or ghosting from the image print. This makes it much easier when complete reclamation of the screen is necessary.

T-6 can be used in a wide variety of innovative cleaning processes ranging from re-circulation machines, dip tanks, immersion cleaning processes, and automatic reclaiming machines. It may also be applied manually with a scrub pad, spray bottle, or pneumatic pump systems.

## ADVANTAGES

- Low Odor
- High Solvency
- High load capacity to reduce usage
- High flash point / Non-flammable
- Non-Hazardous
- Mesh safe
- Multiple applications

## APPLICATIONS

Always card excessive ink from screen. Use one of the following applications.

### **4 x 4 Stainless Steel Recirculating Booth**

[Click here for more details.](#)

### **FA 3000 Automatic Screen Reclaiming Unit**

[Click here for more details.](#)

## **RECIRCULATING WASH:**

*Card excessive ink from the screen. This product can be continuously recirculated until product becomes too heavily soiled with solids. Used product may be filtered and reused.*
